## DCS IP gateway release notes

Firmware version: 06.01.00.00 (for DCS IP gateway 2nd generation)

### Notes

The firmware is only suitable for the DCS IP gateway 2nd generation (order no. 262197, 262198, 262199).

The ZIP file must be unpacked before the firmware update.

### Bug fixes

- Troubleshooting DTMF command in connection with the GIRA G1 in SIP client mode
- Behaviour with recurring supply voltage and DHCP network
- Troubleshooting: Firmware update via SD card

### Known limitation

- Omission of the QVGA resolution for e.g. the Gira Control 9
